		<b>Total</b>	<b>2</b>	<b>6</b>	<b>6</b>	<b>0</b>	<b>14</b>
	<b>Average wait from referral to treatment (weeks)</b>	<b>0.2</b>	<b>3.07</b>	<b>4.33</b>	<b>0</b>	<b>3.2</b>	

Notes :

1. The above is in respect of those starting treatment who had an FSA - on average 25% of treatments are retreats  
These are not included in the above
2. A patient may be treated in more than one area at a time in the above these are counted as 1 patient (unlike section B)  
As this patient have had only one referral to FSA
3. As D categoried patients are in fact protocol and as such the wait is defined through the protocol these can have an effect on the average wait time from referral to treatment figure reported.
4. A priority can change from FSA to Treatment and this can skew the times
5. With low numbers of patients averages can be skewed by single issues
